SENSES MEETS WITH CRAFTSMANSHIP

In 1988, we started our journey with the ambition to produce excellent boats. With the same passion and excitement, we continue to produce boats with keeping on top of all the value of customer satisfaction from **40 different countries** on **4 continents** from our facility in Izmir / Turkiye.

We aim to save our leadership through a global market in water sports boats and to bring our superior experience in this field to different markets with our new models.

3 meters to 14 meters water sports boats, excursion boats, passenger boats, fishing boats, diving boats, and custom-built boats are produced in accordance with the Recreational Craft Directive and Class Standards.

We analyze and design beyond quality standards. With our experienced technical staff and managers in the field, we are trying to understand not only the needs of today but also the future, we design innovative boats with our insight. With our commitment to excellent production philosophy, original design and engineering meet with craftsmanship.

We present craftsmanship harmonized with high-quality materials, to make dreams accessible for excellent performance and experience at sea.
